

Cessna Caravan I/G600/G1000

Professional Pilot and Technician Training Programs

As the factory-authorized training provider for Cessna (Textron Aviation) for over four decades, FlightSafety offers type-specific, simulator-based training on the Caravan I/G600/G1000. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Cessna Caravan I/G600/G1000 pilot training is offered at the Wichita East Learning Center in Wichita, Kansas. Maintenance training for the Cessna Caravan I/G600/G1000 is offered at the Wichita Maintenance Learning Center in Wichita, Kansas.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Cessna that is built around FlightSafety's training programs for the full line of Cessna Citation business jets and Caravan turboprops. The Wichita East Learning Center offers pilots of the Caravan I/G600/G1000 the resources to achieve proficiency and safety. In addition to Caravan training, FlightSafety offers programs for Cessna aircraft at our Learning Centers located in Atlanta, Georgia; Columbus, Ohio; London Farnborough, United Kingdom; Long Beach, California; Orlando, Florida; San Antonio, Texas, and Wichita, Kansas – sites chosen for customer convenience and proximity to major service facilities.

Cessna Caravan I/G600/G1000 Training Program Highlights

- Our Wichita East Learning Center offers training for every model of the Caravan I including the new EX. Our simulators are equipped with several different avionics packages including G1000, G600 and G530/430.
- FlightSafety International is the factory-approved training provider for the Caravan I/G600/G1000.
- Get a head start on your training with FlightBag, our second-generation training materials app. Download complete training and pre-course study materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- We have been conducting training for the Caravan for more than two decades.

Cessna Caravan I/G600/G1000

Training Program Highlights (continued from previous page)

- Our Caravan I/G600/G1000 training program offers a general instrument single-engine refresher course.
- We offer comprehensive maintenance training at our Wichita Maintenance Learning Center, which is located right next door to the Wichita Textron Service Center.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for the Cessna Caravan. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.
- Cessna Caravan maintenance courses include factory-authorized Pratt & Whitney Canada engine training.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*
