

Cessna Citation Latitude

Professional Pilot and Technician Training Programs

As the factory-authorized training provider for Cessna (Textron Aviation) for more than four decades, FlightSafety offers type-specific, simulator-based training on all Cessna Citation models, including the Citation Latitude. Learning Centers for pilot training on the Cessna Citation Latitude are located in Columbus, Ohio, and Wichita, Kansas. Maintenance training is located at the Wichita Maintenance Learning Center in Wichita, Kansas.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Cessna that is built around FlightSafety's programs for the full line of Cessna Citation business jets. FlightSafety Learning Centers offer Cessna Citation pilots and maintenance technicians the resources to achieve proficiency and safety. Citation Learning Centers are located in Atlanta, Georgia; Columbus, Ohio; London Farnborough, United Kingdom; Long Beach, California; Orlando, Florida; San Antonio, Texas; and Wichita, Kansas – sites chosen for customer convenience and proximity to major service facilities.

Cessna Citation Latitude Training Program Highlights

- Customized training programs are available to meet specific training needs.
- Training courseware and training devices for the Citation Latitude were developed in conjunction with Cessna.
- Get a head start on your training with FlightBag, our second-generation training materials app. Download complete training and pre-course study materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for the Citation Latitude. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.

Cessna Citation Latitude Training Program Highlights

(continued from previous page)

- We have incorporated Graphical Flight-deck Simulator (GFS) training into the Citation Latitude program. The GFS leverages our exclusive MATRIX system technology, providing real-time and interactive simulation during ground training that is proven to enhance your overall learning experience.
- A wide variety of specialty and enrichment training is available through our eLearning and LiveLearning courses.
- Citation Latitude maintenance courses include factory-authorized Pratt & Whitney Canada engine training.
- Our Maintenance Learning Center is located right next door to the Wichita Textron Service Center, but for your convenience, we also offer maintenance training on-site at your location, too.

Cessna Citation Latitude FS1000 Full Flight Simulator

The FS1000 full flight simulator is designed to outperform previous generation simulators in virtually all aspects. Qualified to the world's highest standards, it exactly replicates the flight characteristics of the Citation Latitude, providing a full range of flight conditions and advanced capabilities to enhance instruction.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Citation Latitude Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE	INDOCTRINATION
COURSE MODULE	19 DAYS	5 DAYS	6 DAYS	2 DAYS
Ground School	48.0 hours	14.0 hours	15.0 hours	8.0 hours
Systems Integration Training	14.0 hours	2.0 hours	2.0 hours	8.0 hours
Briefing/Debriefing	10.5 hours	3.0 hours	4.0 hours	N/A
Simulator (Pilot Flying)	14.0 hours	6.0 hours	8.0 hours	N/A
Flight Training	If required	N/A	N/A	N/A

Course Curriculum – The above curriculum as noted is per pilot. Pilot monitoring simulator time will be included should the pilot train as a crew or if paired with another client.

CE680 Type Rated Pilots – FlightSafety has designed a 2-day Citation Latitude Indoctrination Course for pilots who possess a CE680 type rating, have experience in the Sovereign and are transitioning to the CE680A Latitude. This course is conducted the two days prior to the start of the standard Citation Latitude Recurrent or Prior Experience Course. Pilots attending Recurrent or Prior Experience Courses who have already attended the Citation Latitude Indoctrination Course are not required to attend the Indoctrination Course again, but are welcome to attend for an additional charge.

Prior Experience Course – This course is designed for pilots who are seeking an additional type rating or the addition of an ATP. These pilots must have completed an FAA-approved course which led to a type rating prior to enrollment. In addition, this course is also for those pilots who have been flying the aircraft as SIC and now want to obtain a Type Rating. These pilots must have completed an FAA-approved pilot initial course and meet the type rating prerequisites.

Type Rating Prerequisites – As a minimum, pilot must possess a multi-engine and instrument rating with 1,000 hours total time for the CE680A Type Rating.

ATP Prerequisites – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14CFR Part 61.155 through 61.159.

Course Dates – For course dates, please visit our website at flightsafety.com or contact any of the Learning Centers listed below.
