A Legacy Built on Trust

FlightSafety International views safety as a promise and commitment. We build trust over time, and continue to earn it each day. Since our founding in 1951, our instructors, engineers, technicians and team members have greatly contributed to aviation safety around the world. Through comprehensive training programs taught by top instructors. By designing and manufacturing advanced-technology flight simulators and products that provide unmatched realism.

Aviation professionals have put their trust in us for almost seven decades. We earn that daily through ongoing technological innovations and a dedication to enhancing safety. Trust us to remain the global leader in professional aviation training and simulation products.

Customers Always Come First

Customers recognize our many advantages, including delivering the highest-quality training and outstanding service. We build on that foundation with our dedication to safety, experienced instructors, training effectiveness, and advanced-technology simulators. Our commitment to train to proficiency goes well beyond minimum requirements.

We never rest in making our already industry-leading training even better, offering unmatched advanced master-level courses and instruction tailored to specific needs. Our ongoing investment gives our Customers the widest and most complete range of services, equipment and locations available. That adds up to the greatest value in aviation training.

Our Teammates Make the Difference

Our focus on employing the right people demonstrates our firm belief that those who help our Customers train are as important as the technology used. Each of our 1,800 world-class instructors possesses a high degree of industry knowledge to accompany the technical skills needed for personalized instruction. Our programs remain relevant to real-world situations and include the latest, best practices and bulletins. Customers benefit from the expertise of our simulation engineers, who bring decades of experience in building advanced equipment. Our highly trained technicians maintain every piece of equipment with master precision.

Comprehensive Services, Tailored to Specific Needs

Aviation professionals worldwide rely on us to provide the highest-quality training and outstanding service. Approved by aviation regulatory authorities worldwide, our training demonstrates a clear advantage in the quality of our instructors and courseware. With instruction individualized to specific needs, Customers receive custom support and service. Our instructors are committed to each Customer's proficiency and success, with every classroom representing an opportunity to deliver outstanding and unmatched quality.

Building Simulators and Training Technology

Commercial, government and military organizations worldwide rely on our full flight simulators for their training programs. Our engineers have led the way in technological innovations and custom design, built specifically to Customers' needs. The new FlightSafety FS1000 full flight simulators exactly replicate the aircraft they represent and are qualified to the world's highest standards. The MATRIX integrated training system allows a seamless progression of instruction that starts with the classroom and extends into self-paced sessions. Our VITAL visual systems set the standard in performance and fidelity. Our CrewView collimated glass mirror displays offer unmatched distortion-free optical performance with greater clarity, sharpness and brightness.

Master Aviator™ and Master Technician The Highest Standards in Safety

For the best fixed-wing and helicopter pilots, we offer the ultimate challenge of flying abilities – the Master Aviator™ program. Completing a range of advanced-level courses gives pilots a deeper understanding of their aircraft that only the best of the best possess. We recognize them as pilots who have achieved the highest standards and shown a true dedication to safety.

The Master Technician program provides aviation maintenance professionals with in-depth instruction and real-world practical training. This unique program, developed in close collaboration with manufacturers, is designed to enable technicians to further enhance their contributions to the safety, reliability and operating efficiency of the aircraft or components they support and maintain.

Giving Customers Every Advantage

Aviation Training Checklist

Are you receiving the best possible value from your training? FlightSafety delivers professional training to proficiency on fully qualified top-level simulators. Our programs are designed in close consultation with the aircraft manufacturer – we’re the authorized trainer for the vast majority of manufacturers.

We invite you to run through our checklist and see whether your training meets the FlightSafety standard.

- My training partner has been enhancing safety since 1951.
- My training partner provides factory-authorized instruction to ensure the highest-quality, most current and relevant instruction.
- I train at a modern facility conveniently located near the manufacturer or a major service center for my aircraft.
- My training partner offers comprehensive courses for pilots, maintenance technicians, dispatchers and cabin attendants.
- My training partner delivers professional training at Learning Centers worldwide on nearly every current business aircraft type.
- I receive excellent, courteous, responsive customer service at all times.
- My training partner delivers 1.4 million hours of training each year to aviation professionals from 167 countries.
- My training is fully certified by regulatory agencies worldwide.
- I can manage my training online with access to records, schedules and online enrollment.
- My trainer gives me the flexibility to ensure that the instruction meets my specific needs.
- My instructors are highly qualified and experienced both in the cockpit and in the classroom.
- Online eLearning opportunities help me prepare for and enhance my training.
- My training partner provides a full range of programs – initial, recurrent, differences and new advanced courses.
- My trainer offers most courses repeatedly throughout the year, allowing me to choose a schedule that meets my requirements.
- In addition to basic instruction, my trainer offers a wide range of enrichment courses, such as cold weather operations and RVSM.
- I know my instructor will work to help ensure that I reach proficiency.
- The simulators I train on were designed and built by one of the world’s leading simulator manufacturers.
- From ground school to flight training device to full flight simulator, my training uses fully integrated software that promotes consistency.
- Training at my provider regularly occurs on Level D full flight simulators.
- My training partner operates a fleet of 320+ full flight simulators, often with multiple simulators in diverse locations.
- I train with a company that serves 95 percent of Fortune 100 companies that own corporate aircraft.
- My trainer provides exceptional overall value.

If you checked 100 percent of these items, congratulations – and thank you. You’re obviously already training with FlightSafety. If you’re unable to check them all, call us and we’ll explain how you can receive superior training in the areas that matter most.

ThinkSafety®

FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations.
