

Gulfstream G280

Professional Pilot and Technician Training Programs

FlightSafety and Gulfstream have worked together for more than 40 years to develop comprehensive pilot and maintenance technician training programs for practically every Gulfstream aircraft model, including the all-new Gulfstream G280 aircraft. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Gulfstream G280 aircraft training is available at our Learning Center in Dallas, Texas.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Gulfstream that is built around our training programs for the full line of Gulfstream business jets. FlightSafety Learning Centers offer professional pilots and maintenance technicians of Gulfstream G280 aircraft the resources to achieve proficiency and safety. All of FlightSafety's Gulfstream training programs meet the same high standards, regardless of aircraft model. Learning Centers for Gulfstream business aircraft are located in Columbus, Ohio; Dallas, Texas; Hong Kong, China; London Farnborough, United Kingdom; Long Beach, California; Savannah, Georgia; and Wilmington, Delaware.

Gulfstream G280 Training Program Highlights

- We offer training on the world's only Gulfstream G280 simulators. Our cutting-edge Level D simulators – engineered and manufactured by FlightSafety in close collaboration with Gulfstream – feature advanced VITAL visuals, electric motion and control loading, and PlaneView 280 avionics, Gulfstream's exclusive adaptation of Rockwell Collins Pro Line Fusion.
- FlightSafety will install our third G280 simulator in Savannah January 2018 with pilot training beginning March 2018.
- Get a head start on your training with FlightBag, our second-generation training materials app. Download complete training and pre-course study materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Our cabin communications course delivers a solid understanding of cabin systems such as SATCOM, Pronto and fax to keep the systems running smoothly and ensure that passengers receive maximum benefit from their capabilities.

Gulfstream G280

Training Program Highlights (continued from previous page)

- Pilots who take advantage of Gulfstream's cutting-edge PlaneBook electronic pilot manual can use their PlaneBook in all simulator sessions.
- Additional courses available for the G280 include CAT II, HUD/EVS, FANS, London City Special Approach, and CPDLC eLearning course.
- The Dallas Learning Center is over 200,000 square feet and includes Gulfstream training on Gulfstream GII, GIII, GIV, G450/G550, G100, G200, G150 and now the G280 aircraft.
- Maintenance technicians for the G280 can benefit from Total Technical Training, the hands-on, in-depth training program developed jointly by FlightSafety and Gulfstream, leveraging Gulfstream's intimate knowledge of the aircraft and its systems with FlightSafety's training expertise.
- Our G280 Maintenance Initial course is FAA-approved, EASA-approved B1-T1 (theory only) and CASA-approved B1-T1 (theory only).
- Savannah will be offering Maintenance Update, Advanced Troubleshooting and Engine Run & Taxi training starting Q2 2018.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

Simulator Profiles

Location	Year Built	Sim Level	Visual System	Approvals	Avionics	Additional Equipment

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Gulfstream G280 Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT
COURSE MODULE	20 DAYS	5 DAYS
Ground School	60.0 hours	15.0 hours
Systems Integration Training	11.0 hours	1.0 hours
Briefing/Debriefing	21.0 hours	6.0 hours
Simulator (Pilot Flying)	14.0 hours	6.0 hours

PlaneView Avionics training – Trained to proficiency for all pilots based on FAA/EASA standards.

Course Length – Does not include simulator check days, if required.
