

Beechcraft King Air 90, 100 and 200

Professional Pilot and Technician Training Programs

FlightSafety offers comprehensive, type-specific training to pilots and maintenance professionals of business aircraft manufactured by Beechcraft (Textron Aviation), including the King Air 90, 100 and 200 Series. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Training for the King Air is available at FlightSafety Learning Centers in Atlanta, Georgia; LaGuardia Airport, New York; London Farnborough, United Kingdom; Long Beach, California; and Wichita, Kansas. We also offer a full range of maintenance training at our Wichita Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Beechcraft that is built around FlightSafety's training programs for the full line of King Air aircraft. FlightSafety offers training on a wide array of Beechcraft business aircraft at Learning Centers in Learning Centers in Atlanta, Georgia; LaGuardia Airport, New York; London Farnborough, United Kingdom; Long Beach, California; and Wichita, Kansas.

Beechcraft King Air Training Program Highlights

- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- The Wichita East Learning Center offers King Air 250 Pro Line 21 training with King Air 250 Pro Line Fusion Differences Familiarization and King Air C90GTi/GTX Pro Line 21 training with King Air 90 Fusion Differences Familiarization*. These courses, developed in conjunction with Rockwell Collins, use FlightSafety's MATRIX integrated training system, bringing the realities of the Level D simulator experience into the classroom and to other training devices.
- We now offer Operational Day Flow training for the King Air 350 in Atlanta and Wichita, and for the C90GTi in Wichita, with more programs coming soon. ODF training presents daily flight profile scenarios as part of an enhanced multimedia training environment.
- Training courseware and training devices for the King Air 90 and 200 Series were developed in conjunction with Beechcraft (Textron Aviation).

(continued on next page)

**If an aircraft is available for instruction, the Differences Familiarization Courses can be conducted in the cockpit of your own aircraft.*

Beechcraft King Air Training Program Highlights

(continued from previous page)

- A wide variety of specialty and enrichment training is available through our eLearning and LiveLearning courses.
- Our King Air training program includes 13 full flight simulators located among five Learning Centers in the United States and Europe.
- The world's first King Air 350/200 interchangeable full flight simulator equipped with Garmin's G1000 avionics is now located at the Wichita East Learning Center.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for the King Air 90 and 200 Series. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.
- The Wichita Maintenance Learning Center offers cutting-edge technology for King Air technicians and features maintenance classrooms, an engine shop and hangar.
- Our unique practical training courses give technicians the benefit of our 30+ years of working knowledge of King Air products. These classroom and hands-on practical courses compliment standard maintenance course offerings.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*
