Superior
Training
Technology

FlightSafety offers comprehensive, professional training for the Beechjet 400A/Hawker 400XP aircraft. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Beechjet 400A/Hawker 400XP pilot training is available at FlightSafety Learning Centers in London Farnborough, United Kingdom, and Wichita, Kansas. We offer a full range of maintenance training at our Wichita Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Beechcraft Corporation that is built around FlightSafety's training programs for the full line of Beechjet business jets. FlightSafety Learning Centers offer business aviation pilots and maintenance technicians of Beechjet 400A/Hawker 400XP aircraft the resources to achieve proficiency and safety. FlightSafety offers training on Hawker and Beechcraft aircraft at Learning Centers in Atlanta, Georgia; Columbus, Ohio; Houston, Texas; London Farnborough, United Kingdom; Long Beach, California; New York LaGuardia Airport; Wichita, Kansas; and Wilmington, Delaware.

Beechjet 400A/Hawker 400XP Training Program Highlights

- Get a head start on your training with pre-course study guides available at myFlightSafety.com, now compatible with the iPad.
- We now offer Operational Day Flow training for the Beechjet 400A/Hawker 400XP. ODF training presents daily flight profile scenarios as part of an enhanced multimedia training environment.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for the Beechjet 400A/Hawker 400XP. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.
- Training courseware and training devices for the Beechjet 400A/Hawker 400XP were developed in conjunction with Beechcraft Corporation.

Beechjet 400A/Hawker 400XP Training Program Highlights

(continued from previous page)

- We have incorporated Graphical Flight-deck Simulator (GFS) training into the Beechjet 400A/Hawker 400XP program. The GFS leverages our exclusive MATRIX system technology, providing real-time and interactive simulation during ground training that is proven to enhance your overall learning experience.
- A wide variety of specialty and enrichment training is available through our eLearning and LiveLearning courses.
- iPad convenience – download our application and gain access to all classroom training materials. The application puts all these resources at your fingertips, making home study and in-flight planning easy and accessible.
- Our Beechjet 400A/Hawker 400XP simulators feature the ability to give 100 percent simulator type checks.
- The Hawker Beechcraft Learning Center offers cutting-edge technology and features maintenance classrooms, an engine shop, a composites lab and an 11,000-square-foot hangar.
- MXPro – Exceptional training. This unique program gives technicians the benefit of our relationship with Beechcraft Corporation. Together with Beechcraft instructors, FlightSafety has created a classroom and hands-on practical addition to standard course offerings.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Beechjet 400A/Hawker 400XP Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE*
COURSE MODULE	17 DAYS	3-4 DAYS	5 DAYS
Ground School	37.0 hours	10.5 - 12.0 hours	10.5 hours
Systems Integration Training	3.0 hours	1.5 hours	1.5 hours
Briefing/Debriefing	9.0 hours	3.0 hours	4.0 hours
Simulator (Pilot Flying)	12.0 hours	6.0 hours	8.0 hours

Course Length – Course length for the Initial and Prior Experience Courses does include simulator check days.

Type Rating Requirements – As a minimum, pilot must possess a multi-engine and instrument rating with 1,000 hours total time for the BE-400 Type Rating.

Prior Experience Course – This course is designed for pilots who are seeking the addition of an ATP. These pilots must have completed an FAA-approved course which led to a type rating prior to enrollment. In addition, this course is also for those pilots who have been flying the aircraft as SIC and now want to obtain a PIC Type Rating. These pilots must have completed an FAA-approved pilot initial course and meet the type rating prerequisites. Please contact

the Program Manager prior to enrolling in this course. All Prior Experience Courses are scheduled on request.

ATP Prerequisites – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14 CFR Part 61.155 through 61.159.

Pre-course Study Materials – Pre-course study guides and FlightCast are available to clients via myFlightSafety on our website.

Maintenance Training – Maintenance Training, including Pratt & Whitney Canada Engine Training is also available for this aircraft.
