

Hawker HS-125 Series 700/750/800XP/850XP/900XP

Professional Pilot and Technician Training Programs

FlightSafety offers comprehensive, professional pilot and maintenance technician training for the Hawker HS-125 Series aircraft, including the Hawker 700, Hawker 750, Hawker 800XP, Hawker 850XP and Hawker 900XP. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Hawker HS-125 Series training is available at FlightSafety Learning Centers in Columbus, Ohio; Houston, Texas; London Farnborough, United Kingdom; Wichita, Kansas; and Wilmington, Delaware. We also offer a full range of maintenance training at our Wichita Hawker Beechcraft Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Beechcraft that is built around our training programs for the full line of Hawker business jets. FlightSafety Learning Centers offer business aviation pilots and maintenance technicians of Hawker HS-125 Series aircraft the resources to achieve proficiency and safety. FlightSafety offers training on Hawker and Beechcraft aircraft at Learning Centers in Atlanta, Georgia; Columbus, Ohio; Houston, Texas; LaGuardia Airport, New York; London Farnborough, United Kingdom; Long Beach, California; Wichita, Kansas; and Wilmington, Delaware.

Hawker HS-125 Series Training Program Highlights

- FlightSafety has a dedicated maintenance facility in Wichita that offers training for the Hawker HS-125 Series aircraft. Additionally, this facility also offers Pratt and Whitney Canada engine training to support technicians who maintain these aircraft.
- FlightSafety has dedicated full flight simulators specifically for the Hawker 750 and the Hawker 900XP.
- Customers training at our Wichita East Learning Center have convenient access to Beechcraft resources.
- We provide pre-course training materials, including FlightCast, for all Hawker programs through myFlightSafety.com, to help you gain maximum benefit from your training experience.
- Our Hawker HS-125 Series training includes 10 full flight simulators divided among four Learning Centers in the United States and one in Europe.

Hawker HS-125 Series Training Program Highlights

(continued from previous page)

- We have incorporated Graphical Flight-deck Simulator (GFS) training into most of our Hawker programs. The GFS leverages our exclusive MATRIX system technology, providing real-time and interactive simulation during ground training that is proven to enhance your overall learning experience.
- A wide variety of specialty and enrichment training is available through our eLearning and LiveLearning courses.
- We offer MXPro maintenance training in Wichita for the HS-125 Series, including five-day practical training and 10-day regulatory training. MXPro training was developed jointly by FlightSafety and Beechcraft. Using instructors from both companies, it draws on Beechcraft's decades of maintenance expertise and FlightSafety's training excellence to deliver aircraft-specific, in-depth, hands-on training.
- Take advantage of our one-day maintenance differences training in Wichita for the older series Honeywell avionics-equipped Hawker 800/800XP aircraft.
- Our team of instructors has more than 150 years of combined instructing experience. Most of our instructors have experience in the aircraft that they teach.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the
Most Trusted
Name in
Training

Global Leadership FlightSafety delivers more than 1.2 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Hawker HS-125 Series (700/750/800XP/850XP/900XP) Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE	PRO LINE 21 INDOCTRINATION
COURSE MODULE	14-17 DAYS	4-5 DAYS	5-6 DAYS	1 DAY
Ground School	40.0 hours	12.0 hours	12.0 hours	4.0 hours
Systems Integration Training	0.5 or 2.5 hours	0.25 or 1.25 hours	0.25 or 1.25 hours	N/A
Briefing/Debriefing	9.0 hours	3.0 hours	4.0 hours	N/A
Simulator (Pilot Flying)	12.0 hours	6.0 hours	8.0 hours	4.0 hours (GFS)
Simulator (Pilot Monitoring)	12.0 hours	6.0 hours	8.0 hours	N/A

Course Length – All Learning Centers teach the same curriculum with the same number of total hours, however, the course length varies at some centers based on the number of hours taught each day.

Type Rating Requirements – As a minimum, pilot must possess a multi-engine and instrument rating with 1,000 hours total time for the HS-125 Type Rating.

Prior Experience Course – This course is designed for pilots who are seeking the addition of an ATP. These pilots must have completed an FAA-approved course which led to a type rating prior to enrollment. In addition, this course is also for those pilots who have been flying the aircraft as SIC and now want to obtain a PIC Type Rating. These pilots must have completed an

FAA-approved pilot initial course and meet the type rating prerequisites. Please contact the Program Manager prior to enrolling in this course.
All Prior Experience Courses are scheduled on request.

ATP Prerequisites – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14 CFR Part 61.155 through 61.159.

Pro Line 21 Indoctrination Course – Designed for pilots who already have an HS-125 type rating, experience in the HS800/800XP and are transitioning into the Pro Line 21 cockpit. The course is to be taken in conjunction with the Recurrent, whereby, emphasis is placed on avionics training the first day.
