

Beechcraft King Air 300/350

Professional Pilot and Technician Training Programs

FlightSafety offers comprehensive, professional training for the Beechcraft King Air 300/350. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Beechcraft King Air 300/350 training is available at FlightSafety Learning Centers in Atlanta, Georgia, and Wichita, Kansas. We also offer a full range of maintenance training at our Wichita Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Beechcraft that is built around FlightSafety's training programs for the full line of King Air twin turboprop aircraft. FlightSafety Learning Centers offer pilots and maintenance technicians of King Air 300/350 aircraft the resources to achieve proficiency and safety. FlightSafety offers training on a wide array of Beechcraft aircraft at Learning Centers in Atlanta, Georgia; LaGuardia, New York; London Farnborough, United Kingdom; Wichita, Kansas; and Wilmington, Delaware.

Beechcraft King Air 300/350 Training Program Highlights

- Full-motion Level D technology in the King Air 350 is offered in both Wichita and Atlanta.
- Our King Air 300/350 Learning Centers offer Desktop Simulators and Graphical Flight-deck Simulators to enhance your learning experience.
- The Wichita East Learning Center is conveniently located near Beechcraft's aircraft manufacturing facilities, giving clients access to Beechcraft's engineering and customer support resources and the opportunity to gain firsthand aircraft knowledge through plant tours.
- FlightSafety's King Air 300/350 program allows you to conduct full 135 and ATP checks in the simulator.
- All King Air 300/350 pilot and maintenance courses are Beechcraft factory-approved.

Beechcraft King Air 300/350 Training Program Highlights

(continued from previous page)

- We offer comprehensive maintenance training at our Wichita Maintenance Learning Center, including in-depth MXPro – a hands-on training program. Practical maintenance courses in both five- and 10-day sequences are available using actual aircraft.
- We offer FlightSafety’s exclusive type-specific Master Technician training for the King Air 300/350.
- For your convenience, we offer maintenance training both at our Wichita Maintenance Learning Center or on-site at your location.
- Our Wichita Maintenance Learning Center is located at the Eisenhower National Airport next door to the Textron Aviation Service Center.
- King Air maintenance courses include factory-authorized Pratt & Whitney Canada Engine training, avionics courses focusing on Pro Line 21 and a course recently added focusing on Pro Line Fusion.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.3 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*
