

Sabreliner Aircraft

Professional Pilot Training Program

Experienced
Instructors,
Superior
Training
Technology

FlightSafety began its association with Sabreliner in 1974 as the factory-authorized training provider. We continue to offer professional pilot training on Sabreliner models, including the Sabreliner 40/60, Sabreliner 65 and Sabreliner 75/80. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Sabreliner aircraft training is available at our St. Louis, Missouri, Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety is the exclusive training provider for the full line of Sabreliner business jets. Our St. Louis Learning Center offers business aviation pilots of Sabreliner aircraft the resources to achieve proficiency and safety. Our instructors average more than 15 years of experience and are former Sabreliner chief pilots, Air Force jet captains, 135 pilots and airline captains. All Sabreliner programs are located at the St. Louis Learning Center.

Sabreliner Training Program Highlights

- FlightSafety St. Louis houses the only Sabreliner simulators in the world.
- FlightSafety offers maintenance RVSM eLearning training.
- Customized training programs are available to meet specific client training needs.
- Our Sabreliner simulator training programs were developed in conjunction with the aircraft manufacturer, and continue to be refined to meet today's needs.
- Spacious debriefing rooms feature Internet access and CPT stations.
- All of our Sabreliner simulators feature GPS.
- Sabreliner simulators meet FAA standards to provide a realistic training environment.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.2 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Sabreliner 40/60/65/75A/80 Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	UPGRADE
COURSE MODULE	12-14 DAYS	4 DAYS	4 DAYS
Ground School	42.0 hours	15.0 hours	15.0 hours
Systems Integration Training	4.0 hours	0.75 hours	2.0 hours
Briefing/Debriefing	6.0 - 9.0 hours	3.0 hours	3.0 hours
Simulator (Pilot Flying)	12.0 hours	4.5 - 6.0 hours	4.5 - 6.0 hours

Course Length – Course length does not include simulator check days, if required. For FAA Initial and Prior Experience courses, a simulator check is required. A simulator check day will be given for Non-FAA courses when requested.

Simulator Training – Both Pilot Flying and Pilot Monitoring time is available if training as a crew or paired with another client. When training as a non-crew, the total simulator hours in an Initial course will be 12, in a Prior Experience course 6 hours, and in a Recurrent course 6 hours.

Type Rating Prerequisites – As a minimum, pilot must possess a multi-engine and instrument rating with 1,000 hours total time for the type rating.

Prior Experience Course – This course is designed for pilots who are currently flying the aircraft and who are seeking an FAA type rating, or an ATP with a type rating. These pilots must have completed an FAA-approved initial course prior to enrollment and meet the type rating prerequisites.

ATP Prerequisites – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14 CFR Part 61.155 through 61.159.

Course Dates – For course dates, please visit our website at flightsafety.com or contact the Learning Center listed below.
