

# LiveLearning®

*Instructor-Led Training at Your Convenience*

## Real-Time Learning in the Comfort of Home or Office

*Take a front-row seat with a live instructor at your next training session – without leaving the comfort of your own home or office. Our LiveLearning courses are web-based and instructor-led, providing all the benefits of being in the classroom and the convenience of completing your training online.*

### **Instructor-Led Training at Your Convenience**

For more than six decades, FlightSafety has been fielding the industry's best, most knowledgeable instructors. Now those instructors are available via live, over-the-web training. Simply log on at a set date and time to complete your training.

In a FlightSafety LiveLearning course, you're not just another spectator. You're encouraged to engage with the courseware, with other students and with the instructor. Training includes live class surveys, recordings, videos, interactive demonstrations and more. You can even interact directly with online presentations.

### **Track Your Progress**

Our Learning Management System records your progress and keeps track of your LiveLearning bookings. Once you've completed a course and successfully passed the test, you earn a certificate of completion. You can access and print your LiveLearning Records of Training through myFlightSafety.

# LiveLearning<sup>®</sup>

## The Benefits of Live Web-Based Instruction

- Direct access to the industry's best and most knowledgeable instructors
- Real-time interaction with the instructor and peers
- Minimal equipment required

### Complimentary With Full Service

Take advantage of complimentary LiveLearning courses with Full Service contracts. Select courses are available at no charge during or within two weeks before or after regularly scheduled initial or recurrent training.

### Tracking by Chief Pilot or DOM

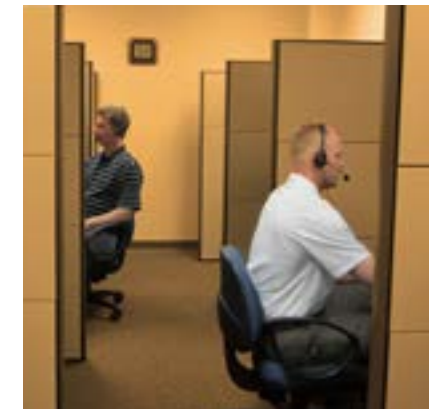

Upon request, we can email weekly progress reports to the administrator of any account.

### LiveLearning Video

Learn more by watching our video: [flightsafety.com/livelearning/demo.php](https://flightsafety.com/livelearning/demo.php)

### Technical Support

FlightSafety LiveLearning technical support analysts are available by telephone during normal business hours and via email after hours.
