

Aviation Training and Simulation for Government and Military

Training, Training Systems & Support for All Types of Aircraft

Governments and military agencies rely on FlightSafety International for mission-training programs and proven advanced-technology simulators, visual systems and displays designed to enhance safety and ensure proficiency. We provide training, training systems and support worldwide for all types of aircraft used by military and government organizations.

With more than six decades of training leadership, we deliver a world of decisive advantages.

- We partner with more than 40 national governments, who entrust FlightSafety-trained pilots with the safety of their diplomats and heads of state.
- An international company, with a global focus, backed by Berkshire Hathaway, one of the world's most successful and admired companies
- Training for military aircraft, air refueling, mission training and weapons systems
- Training for commercial aircraft operated by government and military agencies
- Advanced technology that enables DMO and LVC training

A Full Range of Training and Contractor Logistics

FlightSafety provides military contractor training, Aircrew Training Systems, and Contractor Logistics Services through FlightSafety Services Corporation. We have operated and maintained many important long-term contracts including Aircrew Training Systems for the C-5 transport aircraft for nearly 30 years, the KC-135 aerial refueling aircraft for 18 years, and the KC-10 tanker and cargo aircraft for five years.

FlightSafety is the prime contractor for Contractor Logistics Services of the Joint Primary Aircraft Training System and T-6 Aircrew Training Devices. We are very pleased to have been awarded the Air Crew Training System contract in 2013 for the new KC-46 aerial refueling and strategic transport aircraft.

A Full Range of Training and Contractor Logistics

(continued from previous page)

FlightSafety provides government and military agencies with a full range of advanced- technology training equipment. This includes the design and manufacture of weapons system trainers for tankers, transport, tilt-rotor, rotor-wing, cargo load and refueling aircraft. FlightSafety also builds classroom training equipment and specialized devices such as trainers for refueling boom operators, loadmasters, egress systems, gunnery stations, battle master centers, and fuselage trainers.

Training, Training Support, Advanced Training Programs

No matter what level of training support you seek, we can meet and exceed your needs. Whether that be a single flight-training device or turnkey training operation; full stand-alone training or supplemental instruction; comprehensive training equipment maintenance or standby consultation.

We offer decades of experience with both world-class training and advanced-technology training equipment. Our full flight simulators and training devices, state-of-the-art visual systems and all-glass mirror CrewView displays can replicate the operating characteristics of virtually any military or commercial aircraft. We have developed strong relationships with many of the world's leading business and commercial aircraft manufacturers and defense contractors.

Serving U.S. Armed Forces and allied militaries worldwide.

Worldwide Support

- ▶ We serve as a prime contractor for key military and government programs.
- ▶ We partner with leading defense contractors on training initiatives and turnkey programs.
- ▶ We provide factory-authorized training for the vast majority of business and regional aircraft manufacturers.
- ▶ Our work with Customers is unbiased, as we do not represent the interests of a single aircraft manufacturer or contractor.
- ▶ We serve allied militaries worldwide from locations in the United States, Canada, Europe, South Africa, Australia and Asia.
- ▶ We have the experience and capabilities to design and manufacture flight simulation equipment for virtually every aircraft manufactured.

- ▶ Alenia
- ▶ ATR
- ▶ Airbus
- ▶ Beechcraft
- ▶ Boeing
- ▶ Bell
- ▶ Bombardier
- ▶ Cessna
- ▶ Dassault Falcon
- ▶ Embraer
- ▶ Fairchild
- ▶ Gulfstream
- ▶ Hawker
- ▶ HondaJet
- ▶ Jetstream
- ▶ Lockheed Martin
- ▶ Northrop Grumman
- ▶ Piaggio
- ▶ Saab
- ▶ Sikorsky

Training Devices for Virtually Any Aircraft or Weapons System

FlightSafety designs, manufactures, installs and supports state-of-the-art full flight simulators, flight training devices and Weapons Systems Trainers for a wide range of military and government aircraft training missions.

- ▶ Tankers
- ▶ Transport aircraft
- ▶ Rotary-wing and tilt-rotor aircraft
- ▶ Battle Management Center
- ▶ Cargo load, refueling boom operator and egress systems trainers
