Beechcraft Premier I/IA

Professional Pilot and Technician Training Programs
FlightSafety offers comprehensive, professional pilot and maintenance technician training for the Beechcraft Premier I/IA. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. We offer pilot training for the Premier I/IA at our Learning Centers in Greater Philadelphia/Wilmington, Delaware, and Wichita, Kansas, and maintenance technician training at our Learning Center in Wichita.

**Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency**

FlightSafety International is the world’s leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world’s aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Beechcraft that is built around our training programs for the full line of Hawker and Beechcraft business jets. FlightSafety Learning Centers offer business aviation pilots and maintenance technicians of Beechcraft Premier I/IA aircraft the resources to achieve proficiency and safety. FlightSafety offers training on Beechcraft aircraft at Learning Centers in Atlanta, Georgia; Greater Philadelphia/Wilmington, Delaware; Houston, Texas; London Farnborough, United Kingdom; Long Beach, California; Wichita, Kansas; and New York’s LaGuardia Airport.
Beechcraft Premier I/IA
Training Program Highlights

- FlightSafety International offers the world’s only full motion simulator training for the Premier I/IA aircraft.

- FlightSafety’s Premier I/IA program allows you to conduct full 135 and ATP checks in our advanced full flight simulator. Additionally, our program supports both FAA and EASA regulatory requirements.

- Both our Wichita and Wilmington Learning Centers incorporate the Graphical Flight-deck Simulator (GFS), the latest technology of the MATRIX system, within our Premier I/IA training program. The GFS provides real-time and interactive simulation during ground training that is proven to enhance your pilot’s overall learning experience.

- FlightSafety provides Premier I/IA pre-course training materials, including FlightCast, online through myFlightSafety.com to better prepare your pilots for the most sophisticated training experience.
Check-In/Orientation Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.

Classroom Instruction Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.

Peer Interaction Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.

Self-Paced Learning While you’re with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.

Simulator Briefings Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.

Simulator Training Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.

Simulator Debriefings After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.

Results Complete your training knowing you have the information and skills your job demands – because training doesn’t stop until you’ve reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Customer Needs and Expectations
- FlightSafety Program Office
- Regulatory Requirements
- Interface With Aircraft Manufacturers
- Expert Training Curriculum Design
- FlightSafety Flight Simulators
- MATRIX Integrated Training System
- Comprehensive Course Materials
- Highly Skilled FlightSafety Instructors

Well-Trained Proficiency to the Highest Standards
Global Leadership  FlightSafety delivers more than one million hours of professional aviation training each year. We operate the world’s largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors  FlightSafety fields more than 1,400 of the industry’s best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision.  We train to best meet our Customers’ needs, wherever they may be. This is why FlightSafety’s Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*  

*Not all programs qualified by all authorities listed.

**Type Rating Requirements** – As a minimum, pilot must possess a multi-engine and instrument rating with 1,000 hours total time for the RA-390 Type Rating.

**Prior Experience Course** – This course is designed for pilots who are seeking the addition of an ATP. These pilots must have completed an FAA-approved course which led to a type rating prior to enrollment. In addition, this course is also for those pilots who have been flying the aircraft as SIC and now want to obtain a PIC Type Rating. These pilots must have completed an FAA-approved pilot initial course and meet the type rating prerequisites. Please contact the Program Manager prior to enrolling in this course. All Prior Experience Courses are scheduled on request.

**ATP Prerequisites** – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14 CFR Part 61.155 through 61.159.
