

Executive Emergency Training

Corporate Crew Members

Course Information

Course Description – 3.0 Hour Course

FlightSafety's Executive Emergency Training provides corporate principals and passengers with knowledge and procedures for handling many emergency situations. This training instructs the actual use of emergency equipment such as window and door exits, fire extinguishers, oxygen equipment, life vests, and life rafts. Training includes the use of our industry renowned training devices; the same utilized in corporate air crew emergency training classes but specifically taught at an appropriate level for passengers.

This course can be taught at our Learning Centers or onsite at your facility.
