

# Corporate Cabin Crew Initial - Paris

## Corporate Flight Attendants

### Course Information

#### Course Description – 4.5 Day Course

Corporate Cabin Crew Initial is an interactive scenario-based overview of FAA training requirements taught at the Part 135 level of responsibility and follows many of the EASA Aircrew Regulation Annex V (part CC) training requirements. This course includes anticipated and unanticipated scenario drills, firefighting, sea survival, as well as food plating, serving and safe food handling.

This course is available at our Cabin Safety Learning Center or it can be conducted at your facility.

**First Aid and Aeromedical Training** is available as an additional module.
