Bombardier Learjet 45

Professional Pilot and Technician Training Programs
FlightSafety offers comprehensive, professional training on Bombardier’s full line of business jets, including the Learjet 45. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Pilots train for the Bombardier Learjet 45 at our Learning Centers in Atlanta, Georgia; Tucson, Arizona; and Wichita, Kansas. Tucson also offers maintenance technician training for the Learjet 45 at our Tucson Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world’s leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world’s aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety provides training for the Bombardier Global series, Bombardier Learjet and Bombardier Challenger, offering business aviation pilots and maintenance technicians of Bombardier aircraft the resources to achieve proficiency and safety. Our instructor base includes former chief pilots, line captains and regional jet captains. Learning Centers for Bombardier business aircraft are located in Atlanta, Georgia; Columbus, Ohio; Houston, Texas; Tucson, Arizona; Wichita, Kansas; and Wilmington, Delaware.
Bombardier Learjet 45 Training Program Highlights

- We customize your training programs to meet specific training needs.

- We offer Operational Day Flow training for the Learjet 45 aircraft. ODF training presents daily flight profile scenarios as part of an enhanced multimedia training environment.

- Advance your career while enhancing safety and improving dispatch reliability with our exclusive Learjet 45 Master Technician training for the Learjet 45. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.

- Take advantage of a wide variety of specialty and enrichment training available through our eLearning and LiveLearning courses.

- We have incorporated Graphical Flight-deck Simulator (GFS) training into the Learjet 45 program. The GFS leverages our exclusive MATRIX system technology, providing real-time and interactive simulation during ground training that is proven to enhance your overall learning experience.

(continued on next page)
Bombardier Learjet 45 Training Program Highlights (continued from previous page)

- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.

- All three Learjet 45 Learning Centers offer differences courses to the Learjet 40, the Learjet 40XR and the Learjet 45XR aircraft.

- Our Tucson Learning Center offers Learjet 45 maintenance training – please call the center or visit our website for scheduled dates.

- Courses taught with the assistance of a Spanish interpreter are available upon request at all three Learning Centers – additional charges will apply for this service.

- As always, we have the ability to train Learjet 45 maintenance training at another Learning Center or other offsite location. Please call the Tucson Learning Center to schedule your next training event.
Your FlightSafety Learning Center Experience

1. **Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.

2. **Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.

3. **Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.

4. **Self-Paced Learning** While you’re with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.

5. **Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.

6. **Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.

7. **Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.

8. **Results** Complete your training knowing you have the information and skills your job demands – because training doesn’t stop until you’ve reached proficiency.

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.
Global Leadership  FlightSafety delivers more than 1.3 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors  FlightSafety fields more than 1,800 of the industry’s best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision.  We train to best meet our Customers’ needs, wherever they may be. This is why FlightSafety’s Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*
