

Bombardier Learjet 55

Professional Pilot and Technician Training Programs

Experienced
Instructors,
Superior
Training
Technology

FlightSafety offers comprehensive, professional training on Bombardier's full line of business aircraft, including the Learjet 55. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Pilot training for the Learjet 55 is available at FlightSafety's Learning Center in Tucson, Arizona.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety provides training for the Bombardier Global series, Bombardier Challenger and Bombardier Learjet. We offer business aviation pilots and maintenance technicians of Bombardier aircraft the resources to achieve proficiency and safety, with an instructor base consisting of former chief pilots, line captains and regional jet captains. Learning Centers for Bombardier business aircraft are located in Atlanta, Georgia; Columbus, Ohio; Houston, Texas; Tucson, Arizona; Wichita, Kansas; and Wilmington, Delaware.

Bombardier Learjet 55 Training Program Highlights

- We offer customized training programs to meet your specific training needs.
- A wide variety of specialty and enrichment training is available through our eLearning and LiveLearning courses.
- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Our Learjet instructor team has years of combined experience in both Learjet aircraft and in instruction.

Bombardier Learjet 55 Training Program Highlights

(continued from previous page)

- FlightSafety International holds a seat on the NBAA Learjet Technical Committee. Through this forum, we are able to monitor the pulse of the Learjet community and offer training solutions in a timely and effective manner to meet the needs of this specific community.
- We offer a range of differences training at our Learjet Learning Centers.
 - Atlanta offers LR20 Series, LR31 Series and LR35 Series differences through our Ground School differences course.
 - Tucson offers LR20 Series, LR31 Series and LR35 Series differences through our Ground School differences course.
- Courses taught with the assistance of a Spanish interpreter are available upon request at the Tucson Learning Center – additional charges will apply for this service.
- The Tucson Learning Center is conveniently located adjacent to the Tucson Learjet Maintenance Facility.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

Program Details

| Location | Ground School Software | Differences |
|------------------------|------------------------|--------------|
| Tucson (Learjet 55) | DSP/FSI Author | LR31A, LR35A |

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.3 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.
