

Bombardier Learjet 60

Professional Pilot and Technician Training Programs

FlightSafety offers comprehensive, professional training on Bombardier's full line of business aircraft, including the Learjet 60. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Pilot training for the Learjet 60 is available at FlightSafety's Learning Centers in Atlanta, Georgia, and Tucson, Arizona. Maintenance technicians train for the Learjet 60 at our Tucson Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety provides training for the Bombardier Global series, Bombardier Challenger and Bombardier Learjet. These Learning Centers offer business aviation pilots and maintenance technicians of Bombardier aircraft the resources to achieve proficiency and safety, with an instructor base consisting of former chief pilots, line captains and regional jet captains. Learning Centers for Bombardier business aircraft are located in Atlanta, Georgia; Columbus, Ohio; Houston, Texas; Tucson, Arizona; Wichita, Kansas; and Wilmington, Delaware.

Bombardier Learjet 60 Training Program Highlights

- Elective recurrent Learjet 60 course is available in Atlanta and Tucson.
- Customized training programs available to meet specific Customer training needs.
- Two Learjet 60 facilities – East and West Coast locations – both with Level D simulators.
- Learjet 60 instructors are highly experienced, long-term instructors.
- The Tucson Learning Center offers pilots enrolled in the initial course a more flexible schedule due to the ability to schedule two simulators.
- Atlanta Learning Center very conveniently located in close proximity to Hartsfield-Jackson International Airport.

Bombardier Learjet 60 Training Program Highlights

(continued from previous page)

- Courses taught with the assistance of a Spanish interpreter are available upon request at both Learjet 60 Learning Centers – additional charges will apply for this service.
- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Our Tucson Learning Center offers a full range of maintenance technician training for Learjet aircraft, including Initial, Engine Run & Taxi, Update, Advanced Troubleshooting and Operational Maintenance Procedures – please call the center or visit our website to schedule a class.
- Advance your career while enhancing safety and improving dispatch reliability with our exclusive Master Technician training for the Learjet 60. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

Simulator Profiles

Location	Year Built	Sim Level	Approvals	Avionics	Additional Equipment	Visual System	Debriefing System

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.3 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Bombardier Learjet 60 Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE
COURSE MODULE	17 DAYS	4 DAYS	6 DAYS
Ground School	42.0 hours	14.0 hours	14.0 hours
Systems Integration Training	2.0 hours	1.0 hours	1.0 hours
