

Cessna Citation III, VI and VII

Professional Pilot and Technician Training Programs

As the factory-authorized training provider for Cessna Aircraft Company for nearly four decades, FlightSafety offers type-specific, simulator-based training on all Cessna Citation models, including the Cessna Citation 650 series – Citation III, VI and VII. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. The FlightSafety Learning Center for the Cessna Citation 650 series pilot training is located in San Antonio, Texas. Maintenance Training is located in Wichita, Kansas, at the Wichita Cessna Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Cessna that is built around FlightSafety's programs for aircraft including the Citation 650 series. FlightSafety Learning Centers offer business aviation pilots and maintenance technicians of Cessna Citation aircraft the resources to achieve proficiency and safety. Cessna Citation Learning Centers are located in Atlanta, Georgia; Columbus, Ohio; London Farnborough, United Kingdom; Long Beach, California; Orlando, Florida; Paris-Le Bourget, France; San Antonio, Texas; and Wichita, Kansas – sites chosen for Customer convenience and proximity to major service facilities.

Cessna Citation III, VI and VII Training Program Highlights

- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Our San Antonio Learning Center is conveniently located next to a Cessna Service Center.
- The San Antonio Learning Center offers flexible dates for recurrent training, starting either at the beginning of or in the middle of the week.
- Model differences are also taught at the San Antonio Learning Center.

Cessna Citation III, VI and VII Training Program Highlights

(continued from previous page)

- We offer a full range of maintenance technician training at the Wichita Cessna Maintenance Learning Center for Citation III, VI and VII aircraft, including Initial, Engine Run and Taxi, Update, Troubleshooting and Operational Maintenance Procedures.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for Citation III, VI and VII aircraft. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Cessna Citation III, VI, and VII Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE
COURSE MODULE	13 DAYS	4 DAYS	4-5 DAYS
Ground School	41.0 hours	14.0 hours	14.0 hours
Systems Integration Training	2.0 hours	1.0 hours	1.0 hours
Briefing/Debriefing	9.0 hours	3.0 hours	4.0 hours
Simulator (Pilot Flying)	12.0 hours	6.0 hours	8.0 hours
Simulator (Pilot Monitoring)	12.0 hours	6.0 hours	8.0 hours

Systems Integration Training – This segment provides the pilot with the skills to operate the aircraft, integrate the theory delivered in the ground school, and applies those skills to the operation of the aircraft specific equipment.

ATP Prerequisites – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14CFR Part 61.155 through 61.159.

Course length – Course length does not include simulator check days, if required.

Prior Experience Course – This course is designed for pilots who are seeking an additional type rating (Single Pilot or Crew), or the addition of an ATP. These pilots must have completed an FAA approved course which led to a type rating prior to enrollment. In addition, this course is also for those pilots who have been flying the aircraft as SIC and now want to obtain a Type Rating. These pilots must have completed an FAA-approved pilot initial course and meet the type rating prerequisites. All Prior Experience Courses are scheduled on request.

Training Options – Training conducted in Model III/VI simulators and in a Model VII simulator with SPZ-8000 Avionics in San Antonio, Texas. Model differences also taught in San Antonio.
