

Gulfstream G150

Professional Pilot and Technician Training Programs

FlightSafety and Gulfstream have worked together for more than 40 years to develop comprehensive pilot and maintenance technician training programs for practically every Gulfstream aircraft model, including the Gulfstream G150. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Gulfstream G150 training is available at our Learning Center in Dallas, Texas.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Gulfstream that is built around our training programs for the full line of Gulfstream business jets. FlightSafety Learning Centers offer professional pilots and maintenance technicians of Gulfstream G150 aircraft the resources to achieve proficiency and safety. All of FlightSafety's Gulfstream training programs meet the same high standards, regardless of aircraft model. Learning Centers for Gulfstream business aircraft are located in Columbus, Ohio; Dallas, Texas; Hong Kong, China; London Farnborough, United Kingdom; Long Beach, California; Savannah, Georgia; and Wilmington, Delaware.

Gulfstream G150 Training Program Highlights

- We operate two Gulfstream G150 full flight simulators – the world’s only G150 full flight simulators.
- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Dallas offers Total Technical Training for maintenance technicians. This exclusive training program is a joint effort that leverages Gulfstream’s knowledge of aircraft design, manufacture and support with FlightSafety’s training expertise.
- FlightSafety training for the Gulfstream G150 is FAA- and EASA-approved and exceeds regulatory requirements.
- We offer WAAS-LPV training on both simulators.

Gulfstream G150 Training Program Highlights

(continued from previous page)

- Our G150 fixed-base cabin trainer offers smoke and emergency exit pull-out for general emergency training.
- Classroom training features FlightSafety's exclusive DeskTop Simulators, leveraging the power of Level D full flight simulator software for integrated, interactive training.
- London City Airport steep approach training is available.
- Our G150 maintenance training has earned regulatory approval from the FAA and TC and theory-only approvals from EASA B1-T1, CAAC MEII and CASA B1-T1.
- Advance your career while enhancing safety and improving dispatch reliability with FlightSafety's exclusive Master Technician training for the Gulfstream G150. Master Technicians are recognized throughout the industry as having achieved the pinnacle of training for their aircraft.
- Our 200,000-square-foot Dallas Learning Center includes dining, workout facilities with lockers and showers, large conference rooms, large upstairs atriums for meetings and meals, break rooms with couches and satellite televisions, and executive conference rooms with teleconferencing capabilities.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Gulfstream G150 Pilot Training

COURSE CURRICULUM	INITIAL	RECURRENT	PRIOR EXPERIENCE
COURSE MODULE	19 DAYS	5 DAYS	6 DAYS
Ground School	52.0 hours	15.0 hours	15.0 hours
Systems Integration Training	11.0 hours	1.0 hours	1.0 hours
Briefing/Debriefing	9.0 hours	3.0 hours	4.0 hours
Simulator (Pilot Flying)	12.0 hours	6.0 hours	8.0 hours

Systems Integration Training – This is the integration of CRM principles, flight briefing, and aircraft systems checklist procedures.

Cabin Management Trainer – Dallas now has a Cabin Management Trainer. A review and demo on how to use this system will be given to clients enrolled in the initial course as part of the ground school prior to the aircraft walk around.

Prior Experience Prerequisites – A pilot qualifies for the prior experience curriculum if he/she:

- Is currently qualified in accordance with 61.55 as an SIC in type and has successfully completed a Part 142 approved Initial or Recurrent course in type; or
- Holds a valid pilot certificate issued by FAA or by a contracting State to ICAO, and has logged at least 100 hours as a required flight crewmember (PIC/SIC) in this same type
- Holds a valid pilot certificate with G150 type rating issued by a contracting State to ICAO
- Has a minimum of 1,000 hours flight experience in airplanes as a pilot.
