HondaJet

Professional Pilot Training Programs
As the factory-authorized training provider for Honda Aircraft, FlightSafety offers type-specific, simulator-based training for the HondaJet 420. We offer factory-authorized HondaJet pilot and maintenance technician training at the Honda Learning Center located in Greensboro, North Carolina, on the Honda Aircraft Company Campus.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world’s leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world’s aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety offers the only pilot and maintenance training programs available for the HondaJet. Achieve true pilot proficiency in the HondaJet through comprehensive initial training, followed by regular recurrent training that re-exposes crews to abnormal situations and reinforces correct responses. FlightSafety enjoys a strong relationship with Honda; where both place the highest emphasis on safety.
HondaJet Training Program Highlights

- HondaJet Level D flight simulator for initial and recurrent pilot training.
- Training with high-resolution VITAL 1100 visual system for realistic imagery and environmental conditions.
- Flexible training dates to accommodate our Customers’ needs.
- Online scheduling at flightsafety.com.
- Graphical Flight-deck Simulators (GFS) for HondaJet systems integration training.
- Get a head start on your training with FlightBag, our second-generation training materials app. Download complete training and pre-course study materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- General HondaJet maintenance training meeting FAA and EASA (B1 and B2) requirements are available at FlightSafety’s Learning Center in Greensboro, North Carolina.
- Supplemental engine (Honeywell TFE731) and G3000 avionics systems training also offered.
Your FlightSafety Learning Center Experience

1. **Check-In/Orientation**  Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.

2. **Classroom Instruction**  Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.

3. **Peer Interaction**  Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.

4. **Self-Paced Learning**  While you’re with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.

5. **Simulator Briefings**  Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.

6. **Simulator Training**  Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.

7. **Simulator Debriefings**  After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.

8. **Results**  Complete your training knowing you have the information and skills your job demands – because training doesn’t stop until you’ve reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Customer Needs and Expectations
- FlightSafety Program Office
- Regulatory Requirements
- Interface With Aircraft Manufacturers
- Expert Training Curriculum Design
- FlightSafety Flight Simulators
- MATRIX Integrated Training System
- Comprehensive Course Materials
- Highly Skilled FlightSafety Instructors

Well-Trained Proficiency to the Highest Standards
In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.

*Not all programs qualified by all authorities listed.*

**Type Rating Prerequisites** – To be eligible for a FAA OIC type rating (Single Pilot or Crew) a pilot must possess a multi-engine and instrument rating with 1,000 hours total time. Pilots seeking the Single Pilot Type Rating should contact the Center for additional requirements.

**HondaJet Pro-Ready Experience Course** – This 2-day course provides the knowledge and skills to increase success in obtaining the HondaJet HA-420 type rating. This course will also serve as an evaluation of the pilot's aeronautical decision making and Crew and/or Single Pilot Resource Management knowledge. Following the training session, our HondaJet team will provide guidance and recommendations on areas of focus based on your individual skill level.

**Prior Experience Course** – This is a reduced hours course leading to an ATP or FAA type rating (Single Pilot or Crew) that is available to pilots who meet certain enrollment prerequisites such as previous HondaJet Initial training. It may be used by individuals with a Crew type rating seeking a Single Pilot type rating. All Prior Experience Courses are scheduled on request.

**ATP Prerequisites** – FlightSafety is able to administer Airline Transport Certificate (ATP) Checks during the Pilot Initial and Prior Experience Course. To qualify, pilots must meet the requirements of 14CFR Part 61.155 through 61.159.
