

Piaggio Aero P.180 Avanti and Avanti II

Professional Pilot and Technician Training Programs

As the factory-authorized training provider for Piaggio Aero's P.180 Avanti and Avanti II models, FlightSafety has created in-depth, type-specific programs to ensure that pilots and maintenance technicians of Piaggio Aero aircraft are equipped with the latest in safety training. We offer factory-authorized pilot training for the Piaggio Aero Avanti at our West Palm Beach Learning Center. Maintenance training is conducted at the Wichita East Maintenance Learning Center.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety offers the only pilot and maintenance training programs available for the Piaggio Aero Avanti. Achieve true pilot proficiency in the Piaggio Aero P.180 Avanti and Avanti II through comprehensive initial training, followed by regular recurrent training that re-exposes crews to abnormal situations and reinforces correct responses. The Piaggio Aero P.180 Avanti Maintenance Initial course is offered at our Wichita East Maintenance Center.

Piaggio Aero P.180 Avanti and Avanti II Training Program Highlights

(continued from previous page)

- The FAA/EASA-approved Level D full flight simulators exactly duplicate the flight characteristics and cockpit of the Piaggio Aero high-speed turboprop aircraft. Simulators accurately replicate pilot inputs and aircraft and instrument responses in all flight regimes.
- Our West Palm Beach Learning Center features multimedia classrooms, full motion simulators and specialized maintenance tools and resources.
- Maintenance Initial training for the P.180 Avanti/Avanti II is offered at our East Wichita Maintenance Center.
- We offer Pratt & Whitney Canada PT6A-66 engine line and base maintenance training, Hot Section Inspection and Operational Maintenance Procedures.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.3 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Piaggio Aero P.180 Avanti and Avanti II Pilot Training

COURSE CURRICULUM	P.180 AVANTI INITIAL	AVANTI II INITIAL	RECURRENT
COURSE MODULE	10 DAYS	10 DAYS	3-4 DAYS
Ground School	30.0 hours	34.0 hours	12.0 hours
Systems Integration Training	3.0 hours	3.0 hours	1.0 hours
Briefing/Debriefing	7.5 hours	7.5 hours	4.5 hours
Simulator (Pilot Flying)	10.0 hours	10.0 hours	6.0 hours
Simulator (Pilot Monitoring)	10.0 hours	10.0 hours	6.0 hours

Course length – Course length does not include simulator check days, if required.

Systems Integration Training – This segment provides the pilot with the skills to operate the aircraft, integrate the theory delivered in the ground school, and applies those skills to the operation of the aircraft-specific equipment.

Flight Training – Flight training is conducted in a customer-furnished aircraft. Customer is required to pay for reasonable instructor travel expenses, indemnifications and applicable releases associated with flight training.

Simulator Training – Pilot Monitoring time is reduced if training as a non-crew. When training as a non-crew, the total simulator hours in an Initial course will be 12.5 hours, and in a Recurrent course 6 hours. Simulator training is conducted in a Level D device.

ATP Check – If Course includes 100% Simulator Check for ATP, an additional day must be added for the ATP Oral and Flight Check. Please contact the Learning Center for the cost of the ATP checkride.

Course Dates – For course dates, please visit our website at flightsafety.com or contact the Learning Center listed below.
