

Sikorsky S-92

Professional Pilot and Technician Training Programs

Experienced
Instructors,
Superior
Training
Technology

As the factory-authorized training provider for Sikorsky since 1983, FlightSafety offers type-specific training on the Sikorsky S-92 model. Our highly qualified and experienced instructors, advanced-technology flight simulators, aircraft maintenance trainers and integrated training systems help ensure proficiency and safety. Sikorsky S-92 pilot training is available in Lafayette, Louisiana; West Palm Beach, Florida; London Farnborough, United Kingdom; and Stavanger, Norway. Maintenance training is available at West Palm Beach, Florida.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Sikorsky as the factory-authorized training source for pilots and maintenance technicians. We are dedicated to keeping our instruction accurate and up-to-date with comprehensive, professional training on Sikorsky S-92 helicopters.

Sikorsky S-92 Training Program Highlights

- FlightSafety pioneered FAA Level D full flight simulation for helicopters. The VITAL X visual system creates realistic displays that offer a 220x60-degree vertical field of view and an endless selection of weather conditions and locations. Combined with audio, the experience gives the pilot realistic physical sensations that warrant Level D certification from the FAA.
- S-92 operators now have the option of training on a new, cutting-edge full flight simulator in Stavanger, Norway. The Sikorsky-approved S-92 Level D full flight simulator features next-generation rigid mirror and electric motion systems. The simulator is available for dry lease. Contact our London Farnborough Training Center for details.
- FlightSafety's long-term agreement and close working relationship with Sikorsky provide Customers with the most current and comprehensive training available, ensuring access to the latest technical information and service bulletins.
- Our S-92 simulators feature scenario-based training that includes offshore, database and Customer-specific heliports. The simulators realistically duplicate environments, allowing pilots to experience situations that would be too dangerous, too impractical or impossible to practice in an aircraft. This includes major systems failures and heavy icing or power loss under hot and high conditions.

Sikorsky S-92

Training Program Highlights (continued from previous page)

- FlightSafety has developed training manuals, schematic breakouts and checklists that enhance learning and serve as reference materials.
- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- The West Palm Beach Learning Center's maintenance programs offer a full range of hands-on courses that feature aircraft maintenance trainers and specialized tools. Interactive training makes up nearly 50 percent of the instruction in many Sikorsky maintenance technician courses. The use of official Sikorsky manuals ensures training closely replicates the tools and resources available to technicians in the field.
- FlightSafety's MATRIX system is used for both pilot and maintenance training.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

Simulator Profiles

Location	Year Built	Sim Level	Visual System	Approvals	Avionics	Additional Equipment
Farnborough	2007	D	VITAL X	FAA, EASA	Dual Universal FMS with WAAS and Multi-Mission Capability (SAR)	880 WX Radar, TCAS and EGPWS
Lafayette	2009	D	VITAL X	FAA, ANAC, TC, EASA	Dual Universal FMS with WAAS and Multi-Mission Capability (SAR)	880 WX Radar, TCAS and EGPWS
Lafayette	2013	D	VITAL X	FAA, ANAC, TC	Dual Universal FMS with WAAS and Multi-Mission Capability (SAR)	800 WX Radar, TCAS and EGPWS
Stavanger*	2013	D	VITAL 1100	EASA	Dual Universal FMS with WAAS and Multi-Mission Capability (SAR)	800 WX Radar, TCAS and EGPWS
West Palm Beach	2004	D	VITAL X	FAA, EASA, MOT, CAAC, ANAC	Dual Universal FMS with WAAS and Multi-Mission Capability (SAR)	880 WX Radar, TCAS and EGPWS

*Stavanger – Dry Lease only

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,800 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.

Sikorsky S-92 Pilot Training

COURSE CURRICULUM	S-92 INITIAL	S-92 RECURRENT
COURSE MODULE	30 DAYS	5 DAYS
Ground School	56.0 hours	17.0 hours
Systems Integration Training (CPT)	11.0 hours	2.0 hours
Briefing/Debriefing	15.0 hours	4.0 hours
Simulator (Pilot Flying)	20.0 hours	8.0 hours

Course Length – Does not include simulator check days, if required.

Systems Integration Training – This is the integration of Crew Resources Management (CRM) principles, flight briefing and aircraft systems checklist procedures.

EASA Training – EASA Training is available for the S-92. The EASA curriculum will add additional simulator hours and may increase the length of the course due to EASA requirements. EASA training is not available at the Lafayette Learning Center.

FAR 61.63 (f) or FAR 61.157 (h) – If the course includes a FAR 61.63 (f) or FAR 61.157 (h), an additional day must be added for the Oral and Practical Test events.

Proficiency Checks – The following proficiency checks are available: FAR 61.57 (a), (b), (c), and (d) proficiency check (without ATP or Type Rating objective). FAR 61.58 Pilot in Command proficiency check (without ATP or Type Rating objective).

Course Dates – For course dates, please visit our website at flightsafety.com or contact any of the Learning Centers listed below.
