

MissionFit™ Flight Training Device and Interactive Training System

Mobile Flight Training for Any Location

Introducing MissionFit, a state-of-the-art, mobile Flight Training Device and Interactive Training System designed to be intuitive, reconfigurable, inexpensive and easy-to-use. MissionFit is an ideal choice for customers seeking a low-cost training device for ground school, Systems Integration Training (SIT), avionics familiarization and limited flight training. MissionFit is a technological advantage to accompany any training program and can be deployed in virtually any location, including offices, conference rooms, Fixed Based Operations (FBOs) and military bases.

MissionFit Features

- Seamless true scale graphically simulated cockpit
- Access to any digital training materials
- Optional wireless SmartPanels, for flight guidance, multi-function keyboards and cursor control devices
- Normal, abnormal and emergency procedures training
- Capable of Part 60 Level 5 qualification
- Easily reconfigurable to other aircraft types
- Easy-to-use instructor controls from any smartphone, tablet or laptop
- Minimum maintenance costs
- Modular and mobile design allows tearing down, moving and setup without tools
- Powered from any standard outlet
- Single-button on/off operation
