

PROFESSIONAL AVIATION TRAINING

# Gulfstream Advanced Upset Prevention & Recovery Training

## *Course Information*

Advanced Upset Prevention & Recovery Training presents compelling scenarios that allow pilots to safely experience and recover from historically accurate, fatal, in-flight upset events in a way that would be far too dangerous to experience in an actual aircraft.

During this course, pilots are able to recognize, experience, and recover from inflight loss of control in the safe and controlled environment of a simulator. The course also helps increase knowledge of aerodynamics and develops new skills that are critical to safe operations.

The academic portion of this course consists of four hours of advanced topics including low/high speed aerodynamics, stability and control, aircraft performance, and upset recovery technique. The simulator portion of this course consists of allowing pilots to recognize, experience, and recover from full aerodynamic stall and speeds in excess of VMO/MMO. The Advanced Upset Prevention and Recovery Course presents compelling scenarios based on actual aircraft accidents that allow pilots to safely experience and recover from in-flight loss of control and extreme high-speed events in a way that would be far too dangerous in an actual aircraft.

Course Curriculum	
Course Module	1 Day
Ground School/Academics	4.0 hours
Simulator for Single Client	2.0 hours
Simulator for Crew of two	4.0 hours
Debriefing	0.5 hours
<hr/>	
<b>Gulfstream G280/GIV/GV</b>	
<b>Gulfstream G450/G550 /G650</b>	

**Prerequisite:** Pilots must train in the same make and model that they have currently trained on within the past 12 months with FlightSafety. It is recommended that this course be taken as a crew for maximum effectiveness.

**Training is available at the following Learning Centers:**

- G280 –Dallas North and Savannah
- GIV – Savannah
- GV - Wilmington
- G450 – Dallas North, Long Beach, Savannah and Wilmington
- G550 – Dallas North, Long Beach, Savannah, and Wilmington
- G650 - Long Beach and Savannah

**Course Dates** – This course is scheduled on request. Please visit our website at [www.flightsafety.com](http://www.flightsafety.com) or contact the Learning Center listed below.
