

Falcon 50 (Honeywell TFE731) Avionics

Proline 4

Course Information

Course Description – 5 Day Course

This course is designed to meet the training requirements of aviation maintenance professionals maintaining the Proline 4 Avionics systems on the Falcon 50 aircraft.

To enhance retention of information learned in the classroom specialized training materials and OEM technical data are used. These ensure proper cockpit configuration for operation of engines, aircraft systems, system limitations, diagnostics, and procedures. This methodology prepares the learner to perform system, engine, component, and functional checks and to correlate this information for decision-making/fault diagnosis as well as Return to Service and dispatchability.
