MASTER AVIATOR

THE HIGHEST STANDARD IN SAFETY

Master Aviator

You've worked hard to gain the knowledge and skills needed to earn type ratings and fly proficiently. Take the next step. Go beyond proficiency and become a FlightSafety Master Aviator. Our new program builds on your proven flying abilities with challenging training that expands your skills and prepares you to react correctly to a broad range of demanding, unexpected situations. To become a Master Aviator, complete a series of advanced pilot training courses and your choice of electives. Gain a deeper knowledge of your fixed-wing aircraft or helicopter, advance your professional development, enhance safety, and strengthen all aspects of your flight department. Take pride in being a Master Aviator.

Note: These new courses are being extended to many different aircraft and models. Please contact your preferred Learning Center or Sales Manager for the latest details.

Master a Higher Level of Aviation Skills

Our progressive curriculum expands aviation education beyond the fundamentals covered by initial and recurrent training, and lets you take advantage of the benefits that come with joining an elite group of Master Aviators.

Benefits

- Industry and peer recognition
- Deeper knowledge of the aircraft you fly, helping ensure a safe and correct response to unexpected situations
- Improved airmanship with advanced aircraft-specific courses designed to enhance flying skills, decision-making and crew communication
- Advanced professional and personal development

There's No Limit

Once you achieve Master Aviator status in one aircraft model, you can expand your skill sets and career possibilities by becoming a Master Aviator in additional fixed-wing aircraft and/or helicopters. There is no limit to your learning, or the number of aircraft for which you can earn the status of Master Aviator.

BECOMING A MASTER AVIATOR

Our fixed-wing curriculum now covers multiple manufacturer types and models. Operators can further their personal development and enhance safety by challenging themselves with industry-leading advanced training.

Fixed-Wing Curriculum

All Fixed-Wing Master Aviator candidates must complete:

- A minimum of one initial or recurrent training event every eight months
- Two, three or four courses from each category:*)
 - Core courses
 - Specialty or enrichment simulator courses
 - eLearning or LiveLearning courses
- The IS-BAO eLearning Library
- International Procedures Line Oriented Flight Training (LOFT)

**)Depending on aircraft type*

BE THE MASTER OF YOUR CAREER

For additional information, please call a pilot training sales manager at 800.625.9369, or email sales@flightsafety.com.

Core Courses†

- Advanced Rejected Takeoff Go/No-Go
- Advanced CRM/Human Factors
Line Oriented Flight Training (LOFT)
- Advanced Energy Management
- Advanced Upset Prevention & Recovery Training (UPRT)
