Course Length – All Learning Centers teach the same curriculum with the same number of total hours, however, the course length varies at some centers based on the number of hours taught each day.

Simulator Configurations - The LaGuardia Learning Center provides training in Cockpit Specific Beech 1900C and Beech 1900D Simulators. The Seattle and Toronto Learning Centers provide training in Beech 1900D Simulators.

Type Rating Prerequisites – As minimum, pilots must possess a multi engine and instrument rating with 1000 hours total time for the Type Rating.

Prior Experience Prerequisites – Pilot must have completed an initial course and must be currently serving as an SIC in the BE-1900 or have obtained a minimum of 100 hours as pilot in the BE-1900.

Simulator Check Rides - Initial and Prior Experience course lengths include simulator check days. Recurrent Training Course length includes simulator check when progressive training is completed in the form of a progressive check ride. If a standalone check ride is requested, additional time will be added to course length and an additional charge will be incurred.

Flight Training – When necessary or as requested, flight training is conducted in a customer provided aircraft. This will add additional time to the course.

FlightSafety Provided Crewmember – Pilots requiring FlightSafety to provide a second crewmember for PIC or SIC duties during training in the simulator will be charged an additional hourly instructor rate. Please contact the learning center for details.

Differences Training – Difference training can be provided from the 1900D to the 1900C.

Training Materials – Training and Pre-Course Study materials are available electronically to clients 60 days prior to scheduled training via FlightBag, our second-generation training materials app. Materials are updated automatically as new information becomes available, yet keeps all of your previous notes. The FlightBag App is available through the App Store for free.
