

Dassault Falcon 2000EX EASy/DX/LX/S/LXS

Professional Pilot and
Technician Training Programs

FlightSafety[®]
international

Experienced Instructors, Superior Training Technology

FlightSafety offers comprehensive, professional training on all models of the Dassault Falcon 2000EX EASy Series. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated series training systems help ensure proficiency and safety. We provide pilot training for the Falcon 2000EX EASy series at our Learning Centers in Dallas (North), Texas; Paris-LeBourget, France; and Teterboro, New Jersey. Maintenance technicians can train for the Falcon 2000EX EASy series at our Dallas (North), Texas; Paris-LeBourget, France; and Wilmington, Delaware, Learning Centers.

Innovation With One Purpose: Training Aviation Professionals for Safety and Proficiency

Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency. Aviation professionals leverage decades of instruction knowledge and manufacturing expertise for an unmatched training environment.

FlightSafety is the original factory-authorized training provider for Dassault Falcon aircraft. We offer type-specific simulator-based training on virtually all Dassault business aircraft, from the Falcon 10/100, Falcon 20/20-5, Falcon 50/50PL21* and Falcon 50EX to models such as the Falcon 900, 900B, 900C*, Falcon 900EX, Falcon 900EX EASy/DX/LX, Falcon 2000, 2000EX*, Falcon 2000EX EASy/DX/LX/S/LXS, Falcon 7X and the Falcon 8X. FlightSafety Learning Centers offer Falcon pilots and maintenance technicians the resources required to achieve proficiency and safety. Our Falcon Learning Centers are strategically located for customer convenience and in close proximity to major Dassault Falcon facilities in Columbus, Ohio; Dallas, Texas; Houston, Texas; Paris-Le Bourget, France; Teterboro, New Jersey; and Wilmington, Delaware.

**Ground school differences training only.*

Dassault Falcon 2000EX EASy/DX/LX/S/LXS Training Program Highlights

- Falcon 2000LXS/900LX convertible simulator with FalconEye HUD in Teterboro, New Jersey.
- Dedicated Falcon 2000LXS simulator in Paris, Le-Bourget, France, equipped with FalconEye HUD.
- FlightSafety's exclusive Advanced Pilot Courses, now available to Falcon 2000EX EASy Series operators, are based on analysis of actual incidents and help develop solid flying skills, swift and accurate decisions and precise crew communication. These courses include:
 - Advanced Upset Prevention and Recovery Training
 - Advanced Energy Management
 - Advanced Rejected Takeoff Go/No-Go
 - Advanced CRM Human Factors LOFT

(continued on next page)

Dassault Falcon 2000EX EASy/DX/LX/S/LXS Training Program Highlights

- FlightSafety's new Master Aviator Program is available to Falcon 2000EX EASy Series operators. This program builds on your proven flying abilities with challenging training that expands your skills and prepares you to react correctly to a broad range of demanding and unexpected situations.
- Training programs can be customized to meet your exact needs.
- FlightSafety International provides iPads at no cost to pilots enrolled in Falcon 2000/2000EX EASy Series training in lieu of printed manuals. This keeps pilots connected and engaged in an interactive learning experience throughout their training.
- FlightBag, our second-generation training materials app, allows you to download complete training materials and access them wherever you are from any device. Materials are updated automatically as new information becomes available, yet it keeps all of your previous notes.
- Our Operational Day Flow training system presents daily mission scenarios as part of an enhanced multimedia training environment. You receive operation-based instruction using our exclusive MATRIX suite of simulation applications. These provide realistic, hands-on instruction that has been shown to enhance the learning experience and promote increased retention and transfer of lesson material.

Dassault Falcon 2000EX EASy/DX/LX/S/LXS Training Program Highlights

- FalconEye training is FAA and EASA approved. Training is available at the Teterboro, New Jersey, and Paris Le-Bourget, France, Learning Centers.
- Rockwell Collins EFVS training is also offered in Dallas (North), Texas; Paris Le-Bourget, France and Teterboro, New Jersey.
- FlightSafety instruction for Dassault Falcon exceeds regulatory requirements.
- Training courseware and training devices for the 2000EX EASy/DX/LX/S/LXS were developed with Dassault, in accordance with the Falcon Training Policy Manual.
- Falcon 2000EX EASy Series maintenance training is available at our Dallas (North), Texas; Paris-Le Bourget, France, and Wilmington, Delaware, Learning Centers.
- FlightSafety's exclusive Master Technician Training program is available for the Falcon 2000EX EASy Series aircraft. Master Technicians are recognized through the industry as having achieved the pinnacle of training for their aircraft.
- Dassault Falcon maintenance courses include factory-authorized Pratt & Whitney Canada engine training.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than 1.4 million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 2,000 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

*Not all programs qualified by all authorities listed.
