

Sikorsky S-70A/L UH-60 A/L Maintenance Practical Training

Course Information

Course Description – 10 Day Course

The FlightSafety Sikorsky S-70A UH-60A/L Maintenance Initial course is designed to meet the training requirements of technicians/engineers with limited experience maintaining S-70A UH-60A/L aircraft.

Client will obtain the ability to recall, interpret, identify, test, troubleshoot and correlate system information applicable to the specific aircraft or engine model. Initial training covers use of OEM documentation, component location, normal operation, inspection, service and repair of aircraft systems.

Course participants will be able to demonstrate proper interpretation and utilization of technical data as well as recall major system and sub-system normal operations, safety precautions, ground handling, and system test procedures.

FlightSafety Material Number 306874
