

PROFESSIONAL AVIATION MAINTENANCE TRAINING

# Pilatus PC-24 (Williams FJ44) Engine Run & Taxi Training (With Systems)

*2020 Pricing and Course Information*

**Course Description**

This course is appropriate for Maintenance Technicians who may be required to taxi and perform engine parameter checks on the Pilatus PC-24 aircraft. The course consists of three modules, Standardized, Aircraft Specific and Simulator training that cover systems, normal, abnormal and emergency procedures.

The course can be taken as a standalone but it is recommended that it be taken during or as a follow up to a Maintenance Initial, Update or Troubleshooting course.

Completion of the program ensures enhanced safety during engine run-up and taxiing, and a heightened level of system knowledge.

FlightSafety does not provide client approval to complete engine runs or taxi. These approvals should be received from the client's company.

**One Time Training Cost..... \$5,650.00**

This course is eligible to be used under your Event Based Agreement.

FlightSafety Material Number ..... 304436

**STANDARDIZED MODULE**
