**Course Length** - Course length does not include simulator check days, if required.

**For EASA clients, Single Pilot (SP) to Multi Pilot (MP) and Multi Pilot to Single Pilot transition** - These courses are designed for pilots who are seeking training when transitioning from MP to SP operation or SP to MP operation. Courses consist of 4 hours of ground school and 4 hours of simulator (Pilot Flying) and may require an additional checkride. **All transition courses are 2-3 days in duration, are scheduled on request.**

**Type Rating and Initial Training Prerequisites** – Legal minimum requirements according to the applicable National Aviation Authority apply. For Initial PC-24 training, the FAA requires at a minimum, a Private Pilot Certificate with Instrument and Multi-Engine ratings and a logbook showing at least 70 hours total PIC and 200 hours of total flight time. Additionally FlightSafety International requires 1000 hours total time for the Type Rating which may be waived on a case by case basis. Pilots seeking PC-24 Single Pilot Type Rating, please contact the Center for additional information.

**Training Materials** – Training and Pre-Course Study materials are available electronically to clients 60 days prior to scheduled training via FlightBag, our second-generation training materials app. Materials are updated automatically as new information becomes available, yet keeps all of your previous notes. The FlightBag App is available through the App Store for free.

**Maintenance Training** – Maintenance Training is also available for this aircraft.

**Course Dates** - For course dates, please visit our website at [www.flightsafety.com](http://www.flightsafety.com) or contact any of the Learning Centers listed below.
