Gulfstream G650 LiveLearning EASA Recurrent Pilot Training

Course Information

This FAA approved course is designed to save clients time away from home by replacing the traditional two-day ground school conducted at the Learning Center with a 16-hour LiveLearning recurrent ground school, followed by a knowledge validation at the Learning Center before starting the simulator training.

The pilot will have 90 days from the completion of the LiveLearning Ground School to complete the required validation examination. Since the course is delivered Live via the internet, pilots are required to have a computer/tablet with a stable internet connection and a headset with microphone, or a telephone.

LiveLearning Ground School includes the following modules:

- AFM/AOM
- Air Conditioning
- Aircraft General
- APU
- Avionics/Communications
- Electrical
- Fire Protection
- Flight Controls
- Flight Planning
- Fuel
- Hydraulics
- Ice and Rain Protection
- Landing Gear and Brakes
- Lighting
- Master Warning
- Oxygen
- Pneumatics
- Powerplant
- Pressurization
- Stall Recognition and Recovery
- Thrust Reversers
- Weight and Balance
- Waste and Water
- Windshear
