

Gulfstream GV-SP Series (RRD BR710) Avionics Add-On

G550

Course Information

Course Description – 3 Day Course

This course is designed to meet the training requirements of Avionics technicians who have previously completed the 25 day FlightSafety GV-SP Series (RRD BR710) B1-T1 approved Maintenance Initial Course.

Maintenance training instructional materials and training manuals are used to complete the Avionics systems to level III, on the Gulfstream G550. The course includes component location, normal operation, inspection, service and repair of aircraft systems. Special emphasis is placed on troubleshooting, adjustment, and functional check procedures of the more complex systems.

To enhance retention of information learned in the classroom, system mock-ups, actual aircraft parts, and access to OEM technical data are used to provide “hands-on” training.

FlightSafety Material Number 303805
