

#### Course Description – 3 Day Course

This course is designed to equip the maintenance technician with the knowledge and skills required to perform reassembly of the McCauley C703 Propeller.

The objective of this course covers the assemble of a C703 propeller in accordance with McCauley Technical Report 722. The propellers reassembled in the field per TR-722 are overauled by a certified McCauley facility, and partially disassembled for ease of shipment. This training will allow the client to assemble or disassemble the propeller for shipping.
