

PROFESSIONAL AVIATION MAINTENANCE TRAINING

# Learjet 31/31A Series Maintenance Update

In-Center or Online Instructor-led LiveLearning®

*Course Information*

**Course Description – 5 Day Course**

FlightSafety's Learjet 31/31A Update Training Course meets the training requirements of technicians / engineers with actual experience on the specific airframe or engine. System Reviews are provided on an as-needed-basis, as indicated by the specific clients.

The latest service information and operational aspects of a safe and efficient dispatch of the aircraft are reviewed and stressed. The technician will be required to utilize technical data as well as recall major system and sub-system normal operations, ground handling, safety precautions, and system self-test procedures.

Technicians attending the update course should have previously completed an initial maintenance course and be familiar with the day to day operation of the airframe and or engine.
