

PROFESSIONAL AVIATION TRAINING

Lear 45/45XR LiveLearning Recurrent Pilot Training

Course Information

This course option is designed to save clients time away from home by replacing the traditional two-day ground school conducted at the Learning Center with a 13-hour LiveLearning ground school followed by a knowledge validation at the Learning Center before starting the simulator training.

The client will have **90** days from the completion of the LiveLearning Ground School to complete the required validation examination. If either letter of authorization is expired when the client arrives at the center, the client will be rescheduled for the prerequisite training at the next available opportunity. Since the course is delivered Live via the internet, clients are required to have a computer/tablet with a stable internet connection and an enabled webcam and microphone for video/audio capabilities.

Course Curriculum – Online Items	2 Days
LiveLearning Ground School	13.0 hours
Course Curriculum – Learning Center Items	3 Days
Proctored written exam at the center	1.0 hour
Systems Integration	1.0 hour
