

P&WC JT15D Series Line & Base Maintenance

5 DAY COURSE

Including OLT General Familiarization – Level 1

The JT15D Series Initial Maintenance Course is designed to meet the needs of a Maintenance Technician in maintaining the JT15D Series Engines. The course is a combination of theory and practical activities, including an online pre-course study review course.

Instructor Led Training Course Objectives: Special emphasis is placed on safety, component location, system normal and abnormal operation and indication, routine service / maintenance requirements and basic troubleshooting of the engine systems.

Online Training (OLT) Pre-Course Review: Covers a brief overview of the engine, engine systems and engine to aircraft interface, and includes five modules, along with engine layout and characteristics. It defines the general layout of the engine major systems and identifies maintenance items important to the engine. The course also covers relevant safety precautions.

PRE-COURSE REVIEW ONLINE TRAINING HOURS

General Familiarization – Level 1

Course Modules

Introduction
Course Navigation
Engine / Aircraft
Engine Characteristics
Engine Systems
Publications / Engine Life Limits
Review and Exams

Total Hours Approximately 4.00

INSTRUCTOR LED COURSE MODULES HOURS

Air System1.00
Diagnostics1.50
Engine4.50
