

P&WC PT6A Series Pilot Familiarization

1 DAY COURSE

In-Center or Online Instructor-led LiveLearning®

This P&WC PT6A Series Pilot Familiarization Course contains information pertaining to the specific operation of the PT6A Series engines. This Course is designed and focused at a pilot level to extend the engine life and reduce operational maintenance costs. A basic understanding of jet engine principles is recommended to attend this course. Aircraft type training for pilot initial or recurrent take precedence over all recommendations /pilot tips.

GROUND SCHOOL COURSE MODULES HOURS

Combustion & Turbine	0.25
Compressor & Section	0.50
Engine Overview	0.50
Engine Performance	0.50
Fuel Systems	0.50
Gear Boxes	0.25
Ignition System	0.25
Indication System	0.50
Oil System	0.50
Operating Practices	1.00
Propellers	0.50
Secondary Air System	0.25
Ground School Training Hours	5.50

ACADEMIC COURSE MODULES HOURS

Welcome/Course Introduction	0.50
Total Hours	6.00

Applicable Models: PT6A-11, 11AG, 15AG, 21, 27, 28, 34, 34AG, 34B, 35, 36, 110, 112, 114, 114A, 121, 135, 135A, 140, 140AG, -41, 41AG, 42, 42A, 45A, 45B, 45R, PT6A-52, 60A, 60AG, 61, 64, 65AG, 65AR, 65B, 65R, 66, 66A, 66B, 66D, 67, 67A, 67AF, 67AG, 67AR, 67B, 67D, 67F, 67P, 67R, 67T
